Continuation Sheet (PTOL-303) 110/032,056

Application No.

Continuation of 2. NOTE: although the amendment to claim 1 only involves adding the limitations of claim 15 into claim 1, the rejection of Wook and Noguchi is still applicable. However, the addition of claim 15 which originally depended on claim 12, creates new issues with respect to the rest of the dependent claims 2-14. The amendment will require further consideration and possibly a new search.

Continuation of 5. does NOT place the application in condition for allowance because: the amendment to the claims still does not distinguish over the cited art. The applicant added claim 15 to claim 1 and argued that Wook does not show a metal layer at peripheral portions of the drain electrode. Wook shows in figure 6F that the metal layer (9b) is the drain electrode and is "at" peripheral portions of the drain electrode (9b). However, if the applicant is trying to argue that a metal electrode is formed "on" peripheral portions of the drain electrode, Kim shows (fig. 2D) that metal layer (22D) is formed on the drain electrode 21D and on peripheral portions of the drain electrode. Therefore, the cited art shows all of the elements of the claims, and the rejection will remain final.
